MY PROFILE

I am an experienced web developer with a passion for creating innovative web-based materials that users will enjoy. I am interested in projects that require both conceptual and analytical thinking and am always eager to learn new technologies.
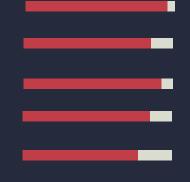

SKILLS

- HTML/CSS
- JavaScript
- React
- Redux/Git
- UI/UX Design

EXPERIENCES

Front-End Developer
(2023 – Present) - e-developers world

- I have 12 months of experience serving as a full-time frontend developer. Throughout this period, I contributed to various projects such as e-commerce websites and hotel management sites.

- As a React developer, responsibilities include understanding business and user needs, collaborating with the product team, and executing ideas through prototyping and implementation.

- Proficient in HTML, CSS, JavaScript, Semantic UI, Material UI, Redux, GraphQL, Styled Components, and StoryBook.
